REPORT OF SOLID WASTE CENTER

I would like to thank the tax payers of Alton for their continued support in 2007.

2007 was a slow year. Tonnage was the same or lower compared to 2006. With the economy not good, people weren't traveling or staying for long summer vacations.

In June of 2007, we started recycling asphalt shingles. Even though we are recycling shingles we still have to pay to dispose of them. Recycling shingles saves the town $20 per ton, plus we receive an aggraphalt back free of charge, which we use at the center.

In the fall we had a chain link fence installed as part of the site improvement and expansion.

I would like to thank my staff for keeping the center running smoothly and the volunteers who keep the swap shop neat.

In closing, I would like to thank Joe Fisher for the 12 years he worked part-time as gate and bush attendant. He will be greatly missed by everyone. Thank you Joe.

BREAKDOWN OF RECYCLABLES IN TONNAGE

Solid Waste	1837
Demolition	975
Metal	177
Aluminum Cans	6
Mixed Paper	110
Cardboard	73
Glass	146
Plastic	25
Tin Can	22
Electronics	23
